Dr Verzella and all his staff were 100 % professional, kind and gentle- like always! My most recent visit was for bonding because my gums had receded and the root needed protection (as explained to me in my 6 month check-up). There was no pain during the administration of the novocaine or during the procedure. Thanks for taking such superb care of my choppers!

I had a previous filling from way back before I began using Prairie work its way out at 5 PM. Because they have extended office hours I called to see when I could have the Doc fill the tooth. They made an appointment for 7 am the next day. When I showed up at 7 am, Doc and staff assessed the issue and it was filled with no pain and I was out in 30 minutes. This expeditious service is their standard and I would recommend you to become a patient of this great practice.

The wait was pretty much non-existent, they were ready for me right at my appointment time. The staff is very friendly and pleasant to talk to :) They're very thorough in their work too, I always feel that they do a great job! Really the only negative thing I have to say is that the appointment reminders are overkill. For a single appointment, I received 3 texts, 3 emails and a phone call. Each one had the option to "confirm" and I did, but that didn't stop the reminders from coming.

i had a tooth abscess and had it for a week with pain . I called this doctor office under a referral from a friend . When I spoke to the office to make the appointment I had told them I had gone to an urgent care place and was already taking antibiotics for the abscess . I had need in tremendous pain and needed to get my tooth removed that I was not looking to do a root canal and wanted to discuss replacing the gap with something else

temporarily I also brought my X-rays with me from the emergency dental place . The receptionist told me ok can you come in Saturday I called them on Thursday . I said sure that would be great they didn't have anything sooner . So I waited till Saturday in pain no sleep and trying to work . I get to the appointment they take an X-ray of my tooth. I told the nurse I brought X-rays and she said oh we can't use those and proceeded to do another X-ray . I said whatever . So the doctor comes in and said ok what seems to be the problem . I looked at him dumb founded as I had explained everything to the nurse and filled out papers . He didn't even know I was coming in for an abscess . He asks me all over again why I would think I have an abscess . I explained again and he said it was probably not an abscess but he would look at my x Ray ??? Comes back and says oh yea you have a nasty abscess . What we will do is a root canal and put a rod in the tooth because there is not much left of th tooth . I said no I wanted to get it pulled and discuss putting something temporary there and the something permentant . I have other missing teeth and wanted to look into a partial . He said oh no you won't like that . And tells me to just do the root canal . I told him no I have to look at all my teeth not just that one and make a plan for all of them . He said well let's just look at this one today . I said ok I want this one pulled . He then preceded to try to convince me to get the root canal with this rod in it . I explained again no I do t want that . There is no tooth left you said that yourself . No root even in this tooth and the rod will hold it in place he said . So I am going back and forth wit this doctor telling him I didn't want the root canal that I didn't want this infection in my mouth anymore and asked him again to pull it . And asked if he would just do the procedure so I could be out of pain I have been in pain to long already . He said ok we will make an appointment to pull the tooth . I looked at him dumb founded again and said that was why I was there to begin with and I was ready for the procedure . He said oh we wouldn't do anything today even if it was the root canal . Because I had to take antibiotics first . I looked at him again and told him I have been on antibiotics for a week and that I was there for an emergency visit . He said yes and emergency consultation ????? I was just looking at him like what ??? He proceeded to tell me that I could come back in during the week

and that they didn't give him a time slot to do any procedures .
??? So I gave up got out of the chair went to the reception area
. I asked the reception for something on prices for procedures
and crowns and bridges and stuff so I could get some kind is
estimate of what it was going to cost me . She tells me it's
different for every person and there is no pricing ? I asked for
pricing on crowns she said well they are all different . I told her
I realize that but wanted to know an estimate on each type of
crown . She said oh we don't know that till he makes a plan . I
said ok prices for services . She said we don't know what type
of service your getting . I said in general . Line the services you
provide here . She again said we don't have set prices ??? So I
told her if she couldn't provide me with prices even for
common procedures I didn't think I was coming back ! Who just
wasted thier time to get an exam to find out later that prices are
double than most places or etc . You don't do business that
way . I am in pain now and need help now not in a week with an
abcess and not have any idea how much it's going to cost me
to pull or do what he wanted . No way !!! I will never visit this
place again . The way the doctor looked at me when I said no to
his procedure was humiliating . i would never refer anyone here
! rhey will just look at you and say I am sorry you are not happy
!! They will disregard what you tell them on the phone when
you make the appointment and not tell you what to expect .

I was mislead about the pricing. I was told my insurance company limited the cost of procedures but would not tell me a price of a specific procedure. So another exam \$101 and a \$395

whitening was encouraged (\$100 deposit). Upon completion of my 20 min. visit they wanted payment of deposit & \$12 toothpaste. Put it on credit card. She gave me the next appointment. Again I ask for the pricing for what I am going to have done. It was \$1000 more than the dentist next door. They hustled me for \$200. I will not go back. BEWARE--deep pockets required to do business there & demand the pricing before you sit in that chair. It's disturbing that greed & deception are so evident in the medical field.

I hate dental procedures but I have no apprehension going to my apps here. Dr Dave is a true artist- and his level of expertise is remarkable. It's a pleasure to interact with staff as they go beyond the call to reduce my high anxiety. I'm just sorry we didn't know about his practice decades ago. Dr Dave was able to save teeth that other dentists had given up on. My entire family gives them an excellent rating and I refer many friends to Dr Dave.

I recently went in for a teeth cleaning and was very happy with the cleaning and staff member performing the cleaning. I was somewhat concerned though that the dentist was not available. I was told he was on vacation. Typically when I have had

cleanings in the past the hygienist cleans the teeth and the dentist follows up with an exam. I was told at this cleaning that since the dentist was not available I would have to return at a separate visit if I had questions or concerns. This would be difficult to do since appointments have to be scheduled in advance due to my work constraints and availability of appointments on their end. I had this appointment scheduled 6 months in advance and would have appreciated knowing the dentist would not be there during my appointment. I most likely would have rescheduled. I do not feel I received a thorough exam and am disappointed that I will most likely be paying for a full cleaning/exam even though it was not done.

I love how Dr. Verzella is always upfront and honest about what work needs to be done. If we can't get everything done right away, he works with us and our budget to ensure that we always have the best smile possible. The entire staff is knowledgeable and so helpful with any questions I have! They have consistently go above and beyond to make sure we are comfortable. Whether it's asking for salt to help with a gag reflex, making a 1st trip fun or calming down someone who is scared of needles, this team can do it all. I don't believe that there is a better practice in Ohio.

My dental experience was excellent. However, the "checking out" left much to be desired. The denial of my 5% senior discount because I was planning to pay by credit card caused my family much inconvenience. The "senior discount" was referred to as a "cash discount" so would not apply if the credit card was used. My family went out of their way to accomplish this, since I was still under the influence of the sedation and not really coherent. Is it a senior discount or a cash discount. Call it as it is and honor it as such.

While visiting relatives in Columbus, my 20 year old crown unexpectedly fell out. Not knowing any Dentists in the area, I relied on a friend's recommendation to contact Dr. Verzella. I couldn't have made a better choice! They fit me in their busy schedule the day following my call for an appointment. The office is beautifully decorated and inviting. The Staff (Beth, Denise, Melody) are kind, friendly responsive, helpful and extremely knowledgeable. Every thing was excellent except that in my view you're over the top when it comes to the notifications that an appointment has been made and you won't let the patient forget. Seems excessive to me. Perhaps I am in a minority, but let's just say for example that you are educated adults and I sent you my response to this survey every day for the next several weeks. You only need to receive it once. You do not need to receive it

via multiple methods (email, text, voice mail etc). If I sent you this survey several times you would start to wonder, what the H%^\$ is my motive? Or, you might think that I'm crazy. Could it possibly be that your motive in excessive notifications be more for your benefit than mine? Just wondering.....

Prairie Dental Excellence is the the best facility in Ohio. The staff is always friendly, courteous, and understanding. Dr. Verzella is extremely concerned with the comfort and well being of his clients. In the past, I used to hate going to see the dentist. But Dr. Verzella has changed our family's perspective and now I can't imagine going to another practice.

I hate going to the Dentist. I have had some bad experiences & some poorly done work. That being said, I can't imagine going anywhere else for my dental care. The staff is kind and courteous without being stuffy or too formal. I had a crown done that ended late in the day on a Friday. I was pleasantly surprised that the Dr. called me later to see how I was doing and to make sure everything was okay. The best thing that Prairie Dental does and will keep me coming back is that they are very clear about costs and specifically out-of-pocket costs after insurance is applied. The cookies are a nice touch too!

I ate a piece of candy and heard cruch. I immediately knew something was wrong. I called and was able to get in same day, that I couldn't handle the pain anymore. Dr.V was great, looked at the xrays and found that not only did I crack a molar but I had an abcess in another tooth and that was one tooth that was aching. He gave me meds and told me to set up another appoinment. His receptionist was great too, she called me later to tell me the amount it would be after the insurance paid. It was very professional and appreciated. Being single mom I really have a limited income and have to find ways when emergencys happen. Now since I know how much I need I can figure everything out. Great service!

Can I say I had a "great time" at the dentist? Well, that might be an overstatement, but I did find my experience at Prairie Dental to be very positive ... as close to a "great time" as one can get, when one needs to have an old filling ground out and a new filling put in. It was painless, from start to finish! And continued pain-free, when I got home and the medication wore off. Dr Dave and his staff were very professional, efficient, and caring. Thank you!

★★★★★ by Anon on 2013-06-13

The facilities of this place are nice overall but the services are way over priced, especially for the area of town it's in, and the expensive services are often encouraged or assumed on you until you mention you don't want it. It seems that they are quite friendly up until the point that you question or refuse their expensive services.

I absolutely LOVE the personal attention I get from the moment I walk in with the receptionist greeting me by name, to Jill asking me about my family, and to Dr. Verzella taking the time to have a conversation with me about things other than my teeth:) Everyone is always so welcoming! I also feel the staff is very approachable with any concern I may have whether it be about billing or a problem with my mouth. The staff is always looking out for the best interest of my children too! For example, they discourage any unnecessary x-rays and they always go above and beyond to make sure my little ones have a positive experience. And one other side note... I love that the entire office feels clean and well maintained...from the waiting area to the window sills I look at while sitting in the chair...I appreciate the cleanliness!

Cracked tooth repair

★★★★★ by Victor Blasutta on 2012-12-02

I was in pain with a cracked tooth and a broken filling. Dr Dave checked it out and gave me his assessment, lets try to fix it by replacing the broken filling and see how that works, well it did work and the crack was more likely a fracture that hadn't actually broken the tooth in two. After two days since the repair my jaw is fine, my tooth has no pain, I am glad it worked out and now have a happy mouth.

Not my best appointment so far

★★★☆☆ by Kathe Arledge on 2012-07-05

I was unsettled at this appt, I could sense Dr. Dave's frustration when the work didn't seem to be going on the right track. It's a good thing though because I know he wants everything to be perfect and cares about my dental care. More unsettling however was Melody's frustration (almost to the point of being rude) trying to schedule an appointment for me and when I told her I was changing insurance companies. She didn't seem to understand that I am starting a new job and can't be available the hours I am now.

★★★★★ by Nancy Thompson on 2012-04-02

I had an amazing experience with an implant replacement for a tooth that had no bone left to sit in. The tooth was alarmingly loose and I was having persistent gum problems. I was going to have it pulled but I really didn't want a hole in the side of my smile. Dr. Verzella explained the procedure to me, and while it seemed complicated and scary to hear about, it was just the opposite to go through. I was comfortable and felt very safe every step of the way, totally supported by the Doctor and his team. I had no pain whatever. That might be hard to believe when you think of any dental work let alone something this sophisticated, but it's totally true. And I now have a strong tooth in a snug gum and my smile is intact. This dentist offers the very best in experience, skill and state of the art technology, all provided with genuine compassion and caring. Best dental experience ever!

Dr. Verzella provides exceptional service, with friendly and courteous care and outstanding treatment. He has been my dentist over 10 years and is an important part of my life, (and my health). When other areas of life change - job, moving locations, friends, he and his staff have always been there, almost like my family.

Dr. Dave Verzella

★★★★★ by Nedra Houston on 2011-11-15

Dr. Verzella is a perfectionist in his work, particularly in cosmetic dentistry. Furthermore, he is patient with children and puts them at ease. In my

experiences for over two decades his procedures are also painless. His office suite is spacious and attractively furnished.

I have been having dental issues since the end of June and have had several procedures done. Nothing helped the pain and it was getting worse. I went to Dr.V on the recommendation of a co worker. He reviewed my xrays and asked a lot of questions. He was honest and direct and didn't feel he could help me, but did recommend Dr. Metz, who deals with complex dental issues. I am planning to have my first cleaning done with him when my current issues are resolved.

A fine day.

★★★★★ by Charles Snyder on 2011-11-09

It was just a fine day. They (the Staff) was ready for me and all went very smooth. I had no pain post surgery. They know their doing and they do it well.

Great as always!

★★★★★ by Robin Houston-Hermes on 2011-11-06

I can't believe the hygienist was able to get my very shy 4year old to open his mouth let alone polish his teeth etc. She and Dr Verzella were awesome with him and the rest of the family too. I very highly recommend!

laughter and listening is this office's strength

★★★★★ by James Stokes on 2011-11-01

i think the horse would still be going if the employee hadn't unplugged it. Laughter is why i've always liked dr. daves office. been a patient for over 25 years at this location.

Excellent Dentist

★★★★★ by Brian Gonzalez on 2011-10-21

I have had several visits now and am pleased every time. He is a dentist I truly trust and doesn't try to push expensive options or unnecessary treatments/procedures on me. The cookies at the end of each visit are an added bonus! Giving them 5 stars, but for some reason the site will only show 4.5.

Can you fall asleep at the dentist's office?

★★★★★ by Anon on 2011-10-15

Once I fell asleep while Dr. Verzella was working on my teeth. He seemed a little annoyed with me, but I don't know why because it seemed to me to be a compliment to his skill.

Everyone was very Friendly

★★★★★ by Krista Inskeep on 2011-10-14

I am so glad I finally changed dentists, Prarie Dental Excellence is an amazing dental office. They are very professional and friendly. The hygienist was very quick and talkative. The dentist was very comforting and has a very good sense of humor. The Front desk lady was very nice and talkative. I would defenitally recommend anyone to Prairie Dental Excellence who wants a friendly dental office. They also give you cookies and a beverage when you schedule an appointment :)

implant procedure.

★★★★★ by Aubrey Hinely on 2011-10-03

Procedure was a "fairly" pleasant experience; if you can ever say that a dental experience is pleasant. Very professional experience and with very little discomfort. Weekend was good but gum is a little sore today (Monday) and a little discomfort when chewing on teeth to either side of implant. Thank you for everything.

★★★★★ by Linda Armstrong on 2011-10-01

Dr. Dave and his staff have always conveyed a very caring attitude toward me. I have been coming to see Dr. Dave and Jill (my hygienist) for cleaning my teeth for many years. I don't have to worry about pain when I need restorations done because Dr. Dave Verzella is very gentle and makes sure that I have enough anesthesia. Thanks Prairie Dental, you are Excellent!
